1. Preface

Dear reader,

We hereby publish the financial report of 2014. With this document, we hope to give insight in the financial activities of our organization, Studenten voor Morgen, and into the various projects that we have organized this year. Morgen publishes this information because we strive to be a completely open and transparent organization.

For questions about the financial report, contact the treasurer:

Kind regards,

Anna Schwarz
Treasurer Morgen 2014-2015

We spent less money on the roadshow than expected because we split the bill with our co-organizer (GO Wageningen). Duurzamestudent.nl did not use all the budgeted money because the travel expenses declared by the editors turned to be lower than expected. We will take this into account for next years.

The DIS was also a success, and we spent less money than expected because the awarding event was combined with the Roadshow and kept a lot smaller than planned. Next year, we will include a separate awarding event.

The advertisements on Duurzamestudent did not work out because of communication issues with the company Adfab. We have not received any payment for the placed advertisement, and there were some frequent errors with the advertisements. In short, we were not content with the collaboration with and from Adfab and the contract with Adfab has therefore been terminated. We are going to look for another partner for an advertisement contract next year. We have not yet budget this because of the many uncertainties surrounding this post.

In short, we made slight losses in 2014 due to the problems with the board donations. However we also made a profit because we spend less money and also received money from third parties like Surf. The negative budget at 'SustainaBul' at income is because we still need to receive part of the € 10.000 from RVO for projects, as the money for the projects is only reimbursed once the projects have been completed. For the projects in 2014, we are still able to receive some money in 2015. This is visible in the balance.

5. Budget 2015

Summary

As you can see, we plan to make a slight loss in 2015. This will not have any effect because of the large profit we made in 2014.

Yearly Budget Estimate Morgen (2015)				
<u>Expenses</u>			<u>Income</u>	
INTERN	Overhead	€ 1,125	Donations board	€ 5,028

		balance:	€ 18	

Intern

No large differences in overhead compared to last years' budget. There is less money available for printing and mail costs, because we try to work digitally and use as little paper as possible.

The promotion budget is high because we are planning to make more flyers, cards and goodies to promote Morgen at large events. Also the general assembly costs are raised; we want these meetings to be a priority for both our members and ourselves.

For management costs we made a separate box for travel expenses for our advisory board and Kasco.

Contribution income is raised because we expect to make more money from 'Vrienden van Morgen' page, and we expect our network organization to expand, which as a result will increase the contributions.

Extern

As mentioned before, we are going to organize cluster meetings for our members this year. The first one has already been held in Utrecht and the next one will take place in Wageningen.

Furthermore, we will organize an extra event this year.

Duurzamestudent gets more money for paper promotion, and money for editor meetings is saved instead of traveling costs in order to attract new editors.

The DIS will become a bigger and better event this year, with HIVOS, Waka Waka and UMEF as partners.
