

Studenten voor MORGEN

The student network for a sustainable future in higher education

We **encourage cooperation** between 41 member organizations. Together we can make real change.

We make **our voices heard** in discussions on the topics of sustainability and education.

We **organize projects and events** in which we integrate sustainability into higher education.

This all contributes to the same goal...

GOAL
integrate sustainability in higher education through..

SustainaBul

A ranking of higher education institutions in the Netherlands with regards to their sustainability efforts. Higher education institutions are key players in the transition towards a sustainable society and therefore they should become more sustainable.

..higher education institutions

Groene Peper

An annual event about sustainability in education which contributes to motivate both educational institutions and students to be more sustainable. The SustainaBul is awarded here.

DuurzameStudent.nl

An online magazine which publishes articles for students, written by student. Public knowledge sharing and inspiration regarding sustainability is important to create a sustainable future.

..students

Duurzame Studies

A website containing all the sustainable studies, bachelors, masters and minors. This offers prospective students an easy opportunity to make a sustainable choice concerning their education.

Sustainability Career Event

An event where students get the opportunity to find their sustainable career path. Students should be made aware of the possibilities and opportunities for a career in sustainability

..students inflow

..students outflow

Duurzame Introductie Tijd

A ranking of the most sustainable Dutch introduction week. It is important for first-year students to get familiar with the concept of sustainability and that the introduction weeks as a whole, become more sustainable.
